

## RECKLI

### 2/201 MECKLENBURG

The functional formliner creates a very smooth, nearly unprocessed concrete surface which is reminiscent of a slate plate. The concrete surface achieves a rank of resistance (to skidding) of R13.

#### DIMENSIONS

Uses	Dimensions (mm)	Order Number
100	▲ 5900 x ▶ 2000	C 2201
50	-	-
10	-	-

Rank of resistance to skidding of the concrete surface R 13

100-timer formliners are supplied in an individual dimension within the maximum indicated dimensions.

The specified widths of the 10-timer and 50-timer formliners are a fixed dimension and ensure the continuity of the structure in the case of linear patterns. The longitudinal direction of the pattern is variable and can be ordered from 1 m up to the maximum dimension in 50 cm steps.
